WKU

Department of Biology

January 2nd, 2024

To whom it may concern,

It is my pleasure to write this letter to express my most enthusiastic endorsement of Dr. Natalie Mountjoy. I started as an Assistant Projessor at WKU in Fall 2022. While new faculty in the Biology Department are assigned a mentor team composed of tenured faculty, Dr. Mountjoy has been an "unofficial" mentor to me since before I even stepped foot on campus. She shared all of the materials that she developed for BIOL 120 the first time I tought the course, and addressed any and all questions that I had. Throughout the last year, I have come to her many times seeking advice on classroom policies and exemptions, and she is always happy to provide her thoughts. We have spent hours brainstorming and discussing new teaching teaching ideas. Without Dr. Mountjoy's guidance and support, my first year at WKU would have been substantially more challenging.

Sincerely,

Hilary Katz

Hilary R Katz, PhD
Assistant Professor
